Summary

Motivated B.Tech student specializing in Artificial Intelligence and Machine Learning with strong foundations in programming, databases, and problem solving. Skills align with Company growth. Currently learning AWS cloud services and data engineering tools.

Education

Galgotias University	2024 – Present
B.Tech in Computer Science (AI & ML)	CGPA: 9.0
L.P.M Public School	2023
Intermediate (CBSE)	81.6%
L.P.M Public School	2021
High School (CBSE)	90%

Skills

- **Languages:** Java, C, C++
- **Web Technologies:** HTML, CSS, JavaScript
- **Developer Tools:** Git, GitHub
- **Databases:** MySQL
- **Concepts:** Data Structures and Algorithms, Object-Oriented Programming (OOP), Database Management Systems
- **Soft Skills:** Teamwork, Problem Solving, Adaptability

Technical Projects

Weather Dashboard UI | HTML, CSS, JavaScript, Weather API Jan 2026 - Feb 2026

- Built a weather dashboard that fetches data from a Weather API and displays temperature, humidity, and forecast information.
- Implemented the interface using HTML, CSS, and JavaScript to retrieve API responses and update weather details dynamically.
- Enabled users to quickly view current weather conditions and forecast information through a responsive interface.

Bank Management System | Java, Swing, JDBC, MySQL Oct 2025 – Dec 2025

- Developed a desktop application in Java to manage banking operations such as account creation, deposits, withdrawals, and balance checking.
- Integrated MySQL using JDBC to perform database operations for storing and retrieving customer account information.
- Simplified handling of banking records and transactions through a graphical user interface.

Library Management System | Java, MySQL Apr 2025 – Jun 2025

- Built a Java-based system to maintain records of books, users, and issued books within a library database.
- Implemented MySQL queries to perform insert, update, delete, and search operations for managing library data.
- Improved organization and tracking of books and user records.

Certifications

- IBM SkillBuild – Agentic AI: From Learner to Builder (2025)
- Smart India Hackathon – Participation Certificate (2025)
- AWS Cloud Practitioner Learning Path – AWS Training (2026)

Achievements

- Solved 200+ problems on platforms such as LeetCode and CodeChef
- LeetCode Peak Rating: 1400+
- Participated in 10+ coding contests
